About me

Motivated and detail-oriented BCA student with strong foundational knowledge in Python, C Programming, Web Development, PHP, SQL, HTML, and CSS. Currently pursuing multiple online internships in Python, C Programming, Software Development, and Web Development. Skilled in developing projects with a passion for problem-solving, learning new technologies, and building user-friendly applications. Seeking opportunities to grow as a Software or Web Developer in a dynamic IT environment.

EDUCATION

Bachelor of Computer Application (BCA)

Graduated May 2026

Maharaja krishnakumarsinhji Bhavnagar University

8.16 CGPA

Shree Swaminarayan College of Computer Science

Relevant coursework: Programming in C, C++, Java, Python Programming, PHP Development, Web Development, HTML, CSS, Database Management Systems (DBMS), SQL, Data Structures and Algorithms, Software Engineering, Object-Oriented Programming (OOP), XAMPP Server, Frontend Development, Responsive Web Design, Computer Fundamentals, Problem Solving and Debugging.

TECHNICAL SKILLS

Programming Languages: Python, C, C++, Java, PHP, SQL

Web Development: HTML, CSS, Frontend Development, Responsive Web Design

Database and Tools: Database Management, XAMPP Server, GitHub

Technical Skills: Problem Solving, Debugging, User Authentication Systems, Software Testing

Certifications: Python Programming Certification – [Reliance Foundation](#), Advanced AI Webinar – [TOPS Technologies](#)

PROFESSIONAL EXPERIENCE

Sparrow Softtech, Bhavnagar, India on-site: PHP Development Intern

Jan 2026 – Feb 2026

- Developed a User Management System using PHP, HTML, CSS, SQL, and XAMPP Server
- Implemented user authentication, profile management, database operations, and debugging functionalities
- Assisted in software testing, troubleshooting, and technical documentation

Intern Alpha, Remote: Python Programming Intern

May 2026 – Jun 2026

- Working on Python-based programming tasks and mini projects involving problem-solving and logic building
- Strengthening concepts of functions, loops, file handling, and object-oriented programming

Code Alpha, Remote: C Programming Intern

May 2026 – Jun 2026

- Developing C programming projects focused on algorithms, conditional statements, and memory management
- Improving coding efficiency and debugging skills through practical assignments
- https://github.com/MariyaKapasi/CodeAlpha_tasks

Coding samurai, Syslan IT, Remote: Web Development Intern

May 2026 – Jun 2026

- Developing responsive web pages using HTML, CSS, and JavaScript
 - Working on frontend design, user interface improvements, and web project development
 - <https://github.com/MariyaKapasi/Syslan-IT-solutions>
-

ACADEMIC PROJECTS

User Management System

Jan 2026 – Feb 2026

Developed a secure web-based user management system using PHP, HTML, CSS, SQL, and XAMPP Server.

GitHub: [github.com/Mariyakapasi/User Management System](https://github.com/Mariyakapasi/User-Management-System)

- Implemented functionalities including user registration, login authentication, profile management, and database operations
- Designed responsive frontend pages and integrated backend connectivity with SQL database
- Performed debugging, software testing, and optimization for improved user experience

Hangman Game

May 2026

Created an interactive text-based Hangman game in Python with logical gameplay and user interaction features.

GitHub: github.com/Mariyakapasi/Hangman-game

- Utilized loops, conditional statements, random module, and string handling concepts for gameplay implementation
- Developed score tracking and word validation logic to enhance user experience
- Strengthened problem-solving and algorithmic thinking through Python programming

Chatbot

May 2026

Built a rule-based Chatbot in Python capable of responding to predefined user queries using logical conditions and functions.

GitHub: github.com/Mariyakapasi/Chatbot

- Implemented conditional logic, loops, and function-based responses to simulate conversational interaction
 - Improved understanding of user input handling and text-based automation concepts
 - Focused on clean code structure and efficient response handling
-

OTHER WORK EXPERIENCE

Mahdi English School, Bhavnagar, India: English Teacher (Grades 5–8) Nov 2023 – Present

Developed strong communication, leadership, classroom management, and presentation skills.

ACTIVITIES

College IT Clubs & Events

2023-2026

- Anchored college IT events and coordinated with teams during technical and extracurricular activities
- Improved public speaking, teamwork, event management, and leadership abilities
